Founded in 1991 in Strawn, Texas, Texas Building Products, Inc. serves a large geographical area with a diverse selection of architectural concrete masonry products including integrally-colored split-face block, burnished block and Spectra-Glaze II glazed block.

Our production facility is located in the heart of a 500 mile radius that includes all of Texas as well as portions of the surrounding six states. In addition, our network of dealers located across the United States allows us to furnish our products virtually anywhere in the country.

Texas Building Products Strives To Insure Our Products Are Of The Highest Quality Manufactured And Delivered With Service Second To None.

All concrete masonry units produced by Texas Building Products contain at least some recycled content and many contain significant amounts. In addition, all raw materials are obtained within 500 miles of the plant in Strawn, Texas.
**SPLIT-FACE BLOCK**

Split-face block from Texas Building Products offers the texture of broken-face stone in a variety of sizes up to 16”x24”. The texture of split-face block gives a wall a dramatic contrast to other materials and textures.

**COLORS**

See chart on Page 5 for available sizes

- **BLANCO**
- **SONORA RED II**
- **RUST II**
- **DUSTY ROSE II**
- **PALO PINTO II**
- **TOBIANO**
- **NAVAJO TAN II**
- **PALOMINO**
- **GRAPHITE II**
- **CHESTNUT II**
- **APPALOOSA**
- **TEXAS GRAY II**
Burnished block from Texas Building Products offers the richness of a ground surface which exposes the colors of the aggregates of the block. A factory-applied sacrificial sealer further highlights the burnished surface.

(Not all sizes represented.)

NOTES:
* Burnished Only
† Bullnose or Chamfer Units
Spectra-Glaze II glazed concrete masonry units by Texas Building Products offer a variety of benefits to the designer. The glazed face is integrally bonded to any size lightweight block. Glazed CMU are resistant to soiling, chemicals, marking, impact, abrasion, urine, blood and acid rain.

• Fire safe and non-toxic and meet all national building codes
• Meet U.S.D.A. and OSHA requirements for sanitary walls
• Provide a one-step wall and finish system
• Proven track record of over 50 years
• Allow virtually any wall surface to be covered with a glazed face
