

## INTRODUCING A MORE POLISHED APPROACH

Polished architectural concrete masonry units by Texas Building Products, Inc. have a naturally smooth, reflective surface produced by a process of grinding with progressively finer abrasion. Nothing is applied to the surface to achieve this rich appearance.

### COLORS

Polished units are available in 8 standard colors plus any of Texas Building Products' burnished colors.

NAVAJO TAN II

BLANCO

TOBIANO

PALO PINTO II

### SIZES

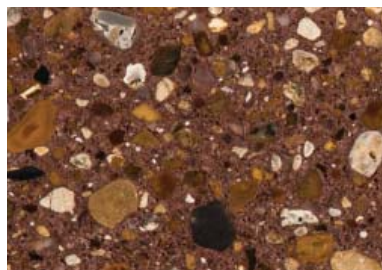

All standard sizes of architectural units are available in the polished texture, both structural and veneer. Face sizes up to 16" x 24".

PALOMINO
